FEE SCHEDULE

Our services are offered on a no-find no-fee basis. Thus, if we do not find the insurance policy, limits and/or number that you have requested, there is no charge to you.

As cases age, it becomes increasingly more difficult for our researchers to extract insurance policy information. Because of our up-front time investment pursuing each insurance trace request, our prices are calculated based upon both the estimated time spent per case, and our historical "hit" ratio. Each case over 10 years old will be individually reviewed and assessed. Should the case be accepted, a flat rate will be implemented.
